4. **Featured Profiles:** Featured profiles of Rotarians.

Referral scenario use case

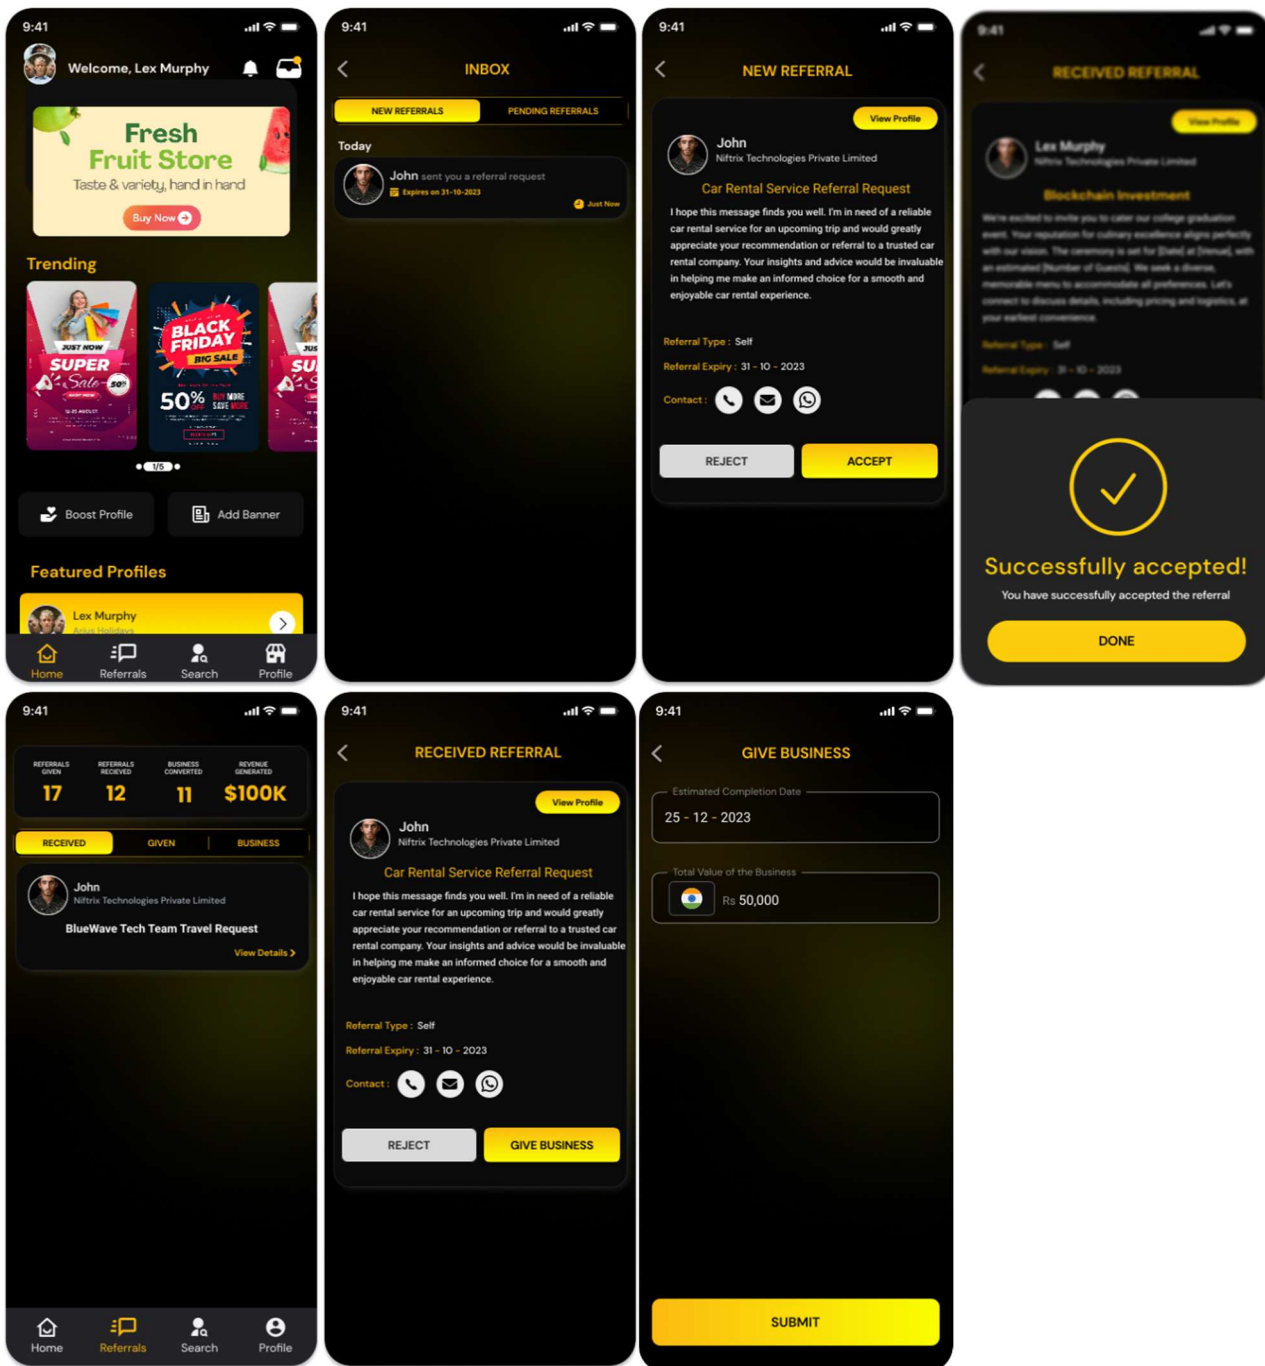

John wants to hire a car from a car rental service for his travel needs.

He uses the Robiz app to search for the car rental service and finds that Lex Murphy provides the service.

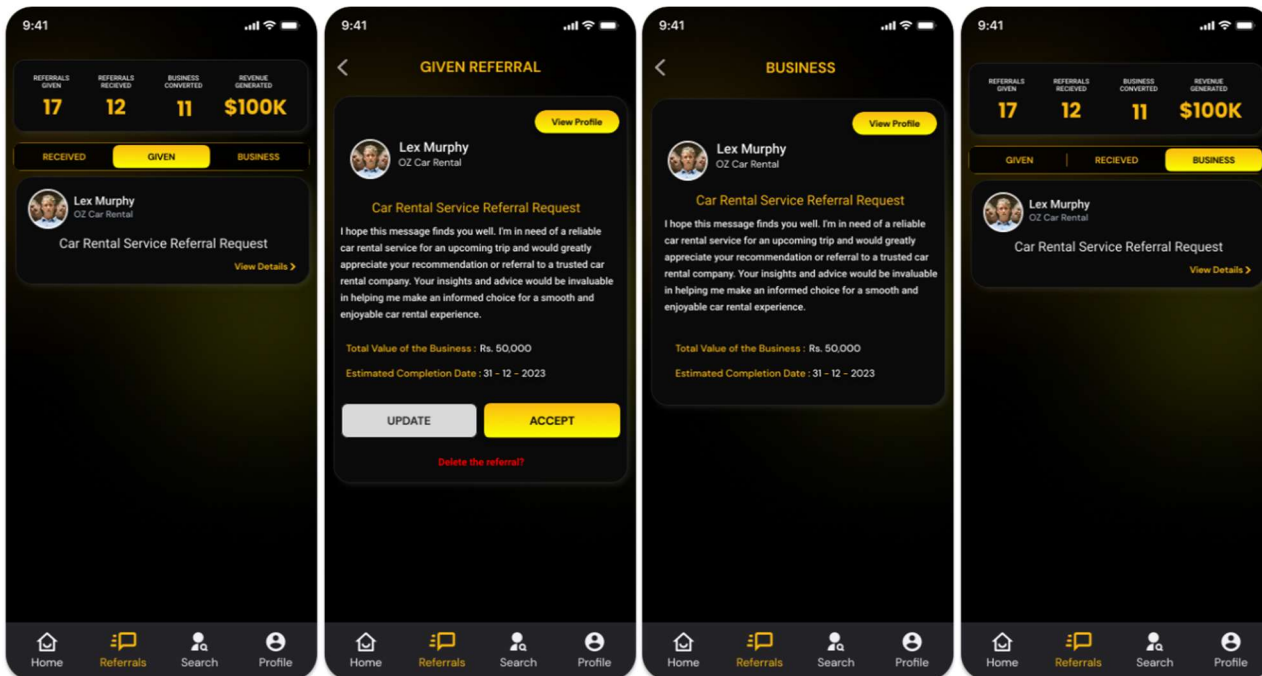

Lex Murphy receives the referral in his notification inbox, views it, and subsequently accepts it after doing the due diligence. Once accepted, the referral is stored in the "Notifications" tab of his referral page.

Lex Murphy has the option to convert the referral into a business whenever he desires.

John is notified when Lex Murphy converts the referral received into a business, and he has the option to accept it if the details are accurate.

Conclusion:

Robiz app will encourage Rotarians and Rotaractors to discuss your business or profession in Rotary and to support the success of their fellow Rotary members by doing business with them, and by referring others to them.

“If any one tells you that it is reprehensible to make a dollar or two for the wife and babies from club associates in straightforward business transactions, tell that person that some foreign substance has gotten into his carburettor.”

(Paul P. Harris, January 1911)
